## **DETAILED ACTION**

### ***Reasons for allowance***

The following is an examiner's statement of reasons for allowance: Applicant argues that the claimed limitation of "said dielectric and said plurality of metal turns of said conductor have a same thickness", as recited in claim 31, means that the "thickness" is the length of said dielectric and said plurality of metal turns in the direction of the y axis, and not in the direction of the x axis. In view of said definition, the prior art of record does not teach or suggest, singularly or in combination, at least the limitations of said dielectric and said plurality of metal turns of said conductor have a same thickness in the direction of the y axis. Independent claims 24 and 37 are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ori Nadav whose telephone number is 571-272-1660. The examiner can normally be reached between the hours of 7 AM to 4 PM (Eastern Standard Time) Monday through Friday.
